This submission is regarding the April 14, 2014 RFAI referencing the Amended 30 Day Post-General Report for the KLV Political Fund received on 2/2/15. Additional information was requested for two items:

1. Two reports of independent expenditures were filed more than 24 hours after the independent expenditures occurred. As noted in the memo text attached to the 24 hour reports once filed, the reports were not filed within 24 hours due to a misunderstanding about the reporting requirements during a runoff election. Because the independent expenditures occurred two days before Thanksgiving, the oversight was not identified until the following week. Once identified, the 24 hours reports were filed.

2. The committee filed two reports for independent expenditures opposing Mary L. Landrieu which did not appear on Schedule E of the 30 Day Post General Report. The report has been amended and these independent expenditures are itemized on a MEMO Schedule E and on Schedule D because they were not paid for until after the reporting period. As a result, the Year End Report was also amended to show the satisfaction of the obligations reported on Schedule D. Both amended reports have been filed.
